

## Yasoo Holiday Apartments – Some of Olympiada’s best beaches

### The central beach of Olympiada

A long beach (more than one km long) inside the village where you can get by foot (150 meters from Yasoo Holidays). There are lots of tavernas, coffee shops and beach bars so you don't have to carry your own umbrellas. The water is appropriate for small kids because of the shallowness of the water. Sporting facilities (beach volley etc).

### Sykia beach

A beach under the archaeological site of ancient Stagira. You can get there by foot or car. It is approximately one km from Yasoo Holiday Apartments. There aren't any umbrellas or bar in this beach so you have to get your own, but the crystal clear water and the bay that is surrounded by trees will amaze you. You should park your car by the road and walk down to the beach (very easy access).

### Kefalas beach

This beach is found about one km away from Olympiada directly below the hill slope of ancient Stagira. You may enjoy the marvelous surroundings of the entire area as the slope leads you to a beach surrounded by olive trees, lots of green and huge rocks in the clear blue waters. You can get to this beach by a walking path. Not appropriate for kids because it's relatively hard to access the beach. You should park your car by the road and walk down to the beach (not easy access but it worth the effort).

### Proti ammoudia beach

While driving along the national road from Olympiada to Stratoni, you will see a lot of beautiful beaches either along the road or further away towards the east. The beach "Proti ammoudia" (means "first beach") is actually the first beach you meet and is at a distance of 1500 metres away from the village. There is a beach bar with umbrellas and sun beds. Also, some basic sporting facilities. Not very easy access by car, quite a lot parking places. Perhaps avoid on weekends.

### Toto beach / Vina

2km after Olympiada towards Stratoni, you will see just left next to the road the beach Vina hidden in the green. There are also beach bars here. The water is deep on the left side and it becomes shall on the right side (one of the best places for kids). Easy access by car, quite a lot parking places.

### Zougla (between Vina and Gourgourou in the map)

4km after Olympiada towards Stratoni, zougla beach is on the left side of the road down a hill. There is a beach bar along the seaside. Probably one of the most atmospheric beaches. Not very easy access by car, not many parking places.

### Babylon Beach/Gourgourou.

5 km away from the center of the village. Ideal for small children because of the shallowness of the water. The beach has a beach bar with umbrellas and sun beds. Easy access by car, quite a lot parking places.
